Allowed Claims: 1-17 and 60-71.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically, with respect to independent claim 1, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein no lens is present between a negative lens located on the most object side of the first lens unit and a second negative lens.

Specifically, with respect to independent claim 4, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein, during variation of magnification from a wide-angle end to a telephoto end, said first through fourth lens units move as claimed.

Specifically, with respect to independent claim 61, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein the second and fourth lens units move in unison with each other during variation of magnification.

Specifically, with respect to independent claim 62, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein the fourth lens unit comprises a negative lens and a positive lens, and has at least one aspheric surface.

Specifically, with respect to independent claim 63, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein the fourth lens unit has a plastic aspheric lens.

Specifically, with respect to independent claim 64, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein the second through fourth lens units comprise the claimed lenses.

Specifically, with respect to independent claim 65, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses and wherein the first lens unit has two negative lenses at the most object side and moves during variation of magnification.

Specifically, with respect to independent claim 66, none of the prior art alone or in combination disclose or teach of a zoom lens as claimed, specifically satisfying the conditions regarding the Abbe numbers and refractive indexes of the claimed lenses

and wherein the first lens unit comprises three lenses including two negative lenses at the most object side.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CITATION OF RELEVANT PRIOR ART

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Endo (U.S. 6,618,198 B1) is being cited herein to show a zoom lens comprising some of the structural limitations of that of the claimed invention, but does not specifically meet the conditions regarding the Abbe numbers and refractive indexes.

CONCLUSION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Choi whose telephone number is (703) 305-3100. The examiner can normally be reached on Monday-Friday from about 9:00 am to 6 pm.
